01 BEST-FIT ROLES

Matching titles describe role fit, not past employment.

Technical Customer Success Manager	Customer Success Manager or Engineer	Solutions Consultant or Engineer	Customer Onboarding Manager
Customer Enablement Specialist	Technical Account Manager	Product Support Specialist	

02 EXPERIENCE

MAY 2025 - PRESENT Apollo.io Product Specialist SaaS onboarding and GTM systems Current employment	- Guide 50+ B2B customer teams weekly in English and Spanish through Apollo implementation, including ICP prospecting, contact data, mailbox setup, lists, sequences, sending controls, deliverability, and integrations. - Translate revenue goals into repeatable workflows and diagnose configuration, activation, and adoption blockers across the outbound lifecycle. - Apply buying intent, enrichment, data quality, sequence logic, and CRM-connected processes to improve operational execution.
MAR 2024 - MAY 2025 MiniTiendAI Product Development Manager Verified product role	- Led product development for a small-business storefront MVP across business creation, responsive UX, catalog setup, commerce handoffs, QA, and releases. - Turned a complex store-building process into guided steps that non-technical owners could complete on desktop and mobile. - Connected product decisions to public evidence, current limitations, and production behavior rather than relying on feature claims alone.
MAR 2024 - PRESENT Independent product portfolio AI, SaaS, and automation product builder Concurrent independent work	- Design and ship AI agents, GTM tools, and workflow automation across web, WhatsApp, Telegram, and voice interfaces. - Connect LLMs, APIs, webhooks, databases, CRMs, and human handoffs using JavaScript/TypeScript, React/Next.js, Node.js, n8n, Make, Zapier, and MCP. - Deliver from product concept through deployment on Vercel, Firebase, Supabase, Docker, Cloudflare, and Hostinger VPS environments.
EARLIER EXPERIENCE Sales, customer operations, compliance, and learning Bilingual commercial and customer-facing roles Grouped summary - no missing employers or dates inferred	- Built end-to-end commercial context through consultative sales, customer onboarding, account operations, fraud/compliance work, training, education, and bilingual support. - Developed a practical ability to explain unfamiliar systems, ask better discovery questions, and guide people through operational change.
