01 BEST-FIT ROLES

Matching titles describe role fit, not past employment.

AI Automation Specialist	**AI Workflow Engineer**	**Automation Engineer**	**AI Solutions Consultant**
Integration Specialist	**Conversational AI Specialist**	**AI Product Builder**	**Low-Code or No-Code Automation Specialist**

02 EXPERIENCE

MAY 2025 - PRESENT

Apollo.io

Product Specialist | SaaS onboarding and GTM systems

Current employment

- Guide 50+ B2B customer teams weekly in English and Spanish through Apollo implementation, including ICP prospecting, contact data, mailbox setup, lists, sequences, sending controls, deliverability, and integrations.
- Translate revenue goals into repeatable workflows and diagnose configuration, activation, and adoption blockers across the outbound lifecycle.
- Apply buying intent, enrichment, data quality, sequence logic, and CRM-connected processes to improve operational execution.

MAR 2024 - MAY 2025

MiniTiendAI

Product Development Manager

Verified product role

- Led product development for a small-business storefront MVP across business creation, responsive UX, catalog setup, commerce handoffs, QA, and releases.
- Turned a complex store-building process into guided steps that non-technical owners could complete on desktop and mobile.
- Connected product decisions to public evidence, current limitations, and production behavior rather than relying on feature claims alone.

MAR 2024 - PRESENT

Independent product portfolio

AI, SaaS, and automation product builder

Concurrent independent work

- Design and ship AI agents, GTM tools, and workflow automation across web, WhatsApp, Telegram, and voice interfaces.
- Connect LLMs, APIs, webhooks, databases, CRMs, and human handoffs using JavaScript/TypeScript, React/Next.js, Node.js, n8n, Make, Zapier, and MCP.
- Deliver from product concept through deployment on Vercel, Firebase, Supabase, Docker, Cloudflare, and Hostinger VPS environments.

EARLIER EXPERIENCE

Sales, customer operations, compliance, and learning

Bilingual commercial and customer-facing roles

Grouped summary - no missing employers or dates inferred

- Built end-to-end commercial context through consultative sales, customer onboarding, account operations, fraud/compliance work, training, education, and bilingual support.
- Developed a practical ability to explain unfamiliar systems, ask better discovery questions, and guide people through operational change.

03 SELECTED PRODUCT EVIDENCE

Zentix
LIVE B2B SAAS

AI agents for sales, support, and appointments across web, WhatsApp, Telegram, and voice.

Hermes Agent Lab
INDEPENDENT LAB

Self-hosted agents with persistent memory, scheduled jobs, tools, and model routing.

Tonalli AI
LIVE PRODUCT DEMO

One workspace for model routing, tools, persistent work, scheduled prompts, and channel delivery.
