01 BEST-FIT ROLES

Matching titles describe role fit, not past employment.

Product Development Manager	**Product Operations Specialist or Manager**	**Technical Product Specialist or Manager**	**Implementation Specialist or Manager**
SaaS Onboarding Specialist	**Product Enablement Specialist**	**Product Adoption Manager**	

02 EXPERIENCE

MAY 2025 - PRESENT

Apollo.io

Product Specialist | SaaS onboarding and GTM systems

Current employment

- Guide 50+ B2B customer teams weekly in English and Spanish through Apollo implementation, including ICP prospecting, contact data, mailbox setup, lists, sequences, sending controls, deliverability, and integrations.
- Translate revenue goals into repeatable workflows and diagnose configuration, activation, and adoption blockers across the outbound lifecycle.
- Apply buying intent, enrichment, data quality, sequence logic, and CRM-connected processes to improve operational execution.

MAR 2024 - MAY 2025

MiniTiendAI

Product Development Manager

Verified product role

- Led product development for a small-business storefront MVP across business creation, responsive UX, catalog setup, commerce handoffs, QA, and releases.
- Turned a complex store-building process into guided steps that non-technical owners could complete on desktop and mobile.
- Connected product decisions to public evidence, current limitations, and production behavior rather than relying on feature claims alone.

MAR 2024 - PRESENT

Independent product portfolio

AI, SaaS, and automation product builder

Concurrent independent work

- Design and ship AI agents, GTM tools, and workflow automation across web, WhatsApp, Telegram, and voice interfaces.
- Connect LLMs, APIs, webhooks, databases, CRMs, and human handoffs using JavaScript/TypeScript, React/Next.js, Node.js, n8n, Make, Zapier, and MCP.
- Deliver from product concept through deployment on Vercel, Firebase, Supabase, Docker, Cloudflare, and Hostinger VPS environments.

EARLIER EXPERIENCE

Sales, customer operations, compliance, and learning

Bilingual commercial and customer-facing roles

Grouped summary - no missing employers or dates inferred

- Built end-to-end commercial context through consultative sales, customer onboarding, account operations, fraud/compliance work, training, education, and bilingual support.
- Developed a practical ability to explain unfamiliar systems, ask better discovery questions, and guide people through operational change.

03 SELECTED PRODUCT EVIDENCE

MiniTiendAI — LIVE MVP

Small-business storefront generation, conversion flows, and WhatsApp ordering automation.

OrdenAI — LIVE PILOT

Restaurant ordering and operations workflows designed to keep channel handoffs together.

HablaYa — LIVE EDTECH PRODUCT

Real-time voice AI language practice across 16 languages with responsive learner workflows.

COMPLETE BUILD INVENTORY

- **MiniTiendAI** — Live MVP
- **OrdenAI** — Live pilot
- **HablaYa** — Live EdTech product
- **Zentix** — Live B2B SaaS
